

Now Hiring!!!

Journeyman Autobody Repair Technician

Herbers Autobody Repair, the leading collision repair company in the Edmonton's market is looking for qualified Journeyman Autobody Repair Technicians to work at one of our five locations (listed below). The successful candidates will enjoy working in a team environment and feel motivated to strive for continuous improvement.

- We offer a stable work environment and the opportunity to advance within the company (permanent full time positions)
- Health and Dental Benefits, Vision Care and Disability coverage after three months of continuous employment
- Compensation is based on skills, ability and performance – starting at \$32/h and up
- Standard work schedule is Monday to Friday, not including weekends

Main Responsibilities:

- Read and verify the repair plan, perform all tasks listed for delivery date
- Restore the structural integrity of the vehicle by cutting away damaged components and welding in new or recycled replacements
- Eliminate dents from the sheet metal as well as possible
- Finish welds to ensure there are no pinholes or grinder marks

Requirements:

- Legal authorisation to work in Canada
- Autobody Technician Journeyman Certificate (Completion of Journeyman Certificate that includes Prepper, Refinisher and Repairer) or equivalent education and experience
- Complete working knowledge of the trade and related equipment along with the ability to apply the knowledge in diagnosis and repair work
- Able to understand, communicate, read and write English at a level needed to meet job related task and safety requirements
- MUST have your own tools
